

For Immediate Release

Parasight System Inc. Announces New Diagnostic Technology for Heartworm, Lyme, & Giardia

Lexington, KY — Parasight System Inc., a leader in innovative veterinary diagnostic solutions, is proud to announce the launch of its new FlowsightAI™ and HemasightAI™ technology, powered by the cutting-edge All-in-One diagnostic analyzer. This state-of-the-art technology expands the analyzer's capabilities to include a comprehensive suite of diagnostic tests, setting a new standard for efficiency, accuracy, and affordability in veterinary care.

Unmatched Diagnostic Capabilities

The new analyzer combines advanced AI-driven diagnostics with unparalleled versatility, offering a wide array of tests for fecal, mucus, and blood samples. Among the tests now available are:

- **Full Panels** detecting multiple parasites including Hookworms, Roundworms, Whipworms, Tapeworms, and Coccidia.
- **Antigen Tests** for Adenovirus, Distemper, Parvovirus, Coronavirus, Rotavirus, Giardia, and Herpesvirus.
- **Antibody Tests** for Heartworm, Lyme, Leptospira, Ehrlichia, Brucella, and Anaplasma.
- **Specialized Tests** such as Total IgE, Relaxin, Toxoplasmosis (IgG and IgM), Infectious Peritonitis, and more.

These additions make the analyzer an invaluable tool for veterinary practices, reducing the cost and reliance on multiple machines while enhancing diagnostic precision.

Powered by FlowsightAI™ and HemasightAI™ Technology

The FlowsightAI™ and HemasightAI™ platforms represent the pinnacle of Parasight System's commitment to technological innovation. With enhanced machine learning algorithms, the system ensures results that are more accurate than traditional diagnostic methods. This increased precision enables veterinarians to provide better care and quicker treatments for their patients.

Efficiency and Cost-Effectiveness

Designed for ease of use, the analyzer delivers results in minutes, empowering clinics to make real-time decisions. The technology streamlines workflows, reduces operating costs, and eliminates the need to send samples to external laboratories—savings that can be passed directly to pet owners.

A Future of Continuous Innovation

"We are excited to introduce FlowsightAI™ and HemasightAI™ for the All-in-One diagnostic analyzer. It is a game-changer for veterinary practices," said Eric Hauck, Parasight System Inc.

CEO. “FlowsightAI™ and HemasightAI™ technology reinforces our dedication to delivering superior diagnostic tools, and we’re proud to provide our partners with the means to elevate patient care.”

The new platform for the All-in-One analyzer is available beginning in January through Parasight System’s distribution partners, including Midwest Veterinary Supply. With this release, Parasight System continues to lead the charge in transforming veterinary diagnostics.

About Parasight System Inc.

Parasight System Inc. specializes in leveraging advanced AI technology to enhance diagnostic accuracy and streamline veterinary workflows. With a mission to empower veterinary professionals, the company delivers solutions that improve patient outcomes while driving operational efficiencies.
