

****FOR IMMEDIATE RELEASE****

****Parasight System Inc. Announces Integration with Cornerstone, Avimark, and Impromed Infinity Veterinary Practice Management Systems****

October 1, 2024 — Lexington, Kentucky — Parasight System Inc., a leading innovator in veterinary diagnostic solutions, is excited to announce the successful integration of its advanced diagnostic platform with three of the most widely used veterinary practice management systems: Cornerstone, Avimark, and Impromed Infinity. This integration marks a significant milestone in enhancing operational efficiency and diagnostic capabilities for veterinary practices.

****Seamless Integration for Enhanced Efficiency****

With this new integration, veterinary clinics using Cornerstone, Avimark, and Impromed Infinity can now seamlessly incorporate Parasight System's diagnostic tools into their daily operations. This streamlines workflow, allowing veterinarians and staff to access diagnostic results directly within their practice management software, reducing manual data entry and minimizing the risk of errors.

****Empowering Veterinary Practices with Advanced Diagnostics****

Parasight System's state-of-the-art diagnostic solutions are designed to provide accurate and timely results, aiding in the early detection and treatment of various animal health conditions. The integration with these leading practice management systems ensures that veterinarians have immediate access to critical diagnostic information, enhancing their ability to deliver high-quality care to their patients.

****Future Integrations with Cloud-Based Systems****

Looking ahead, Parasight System Inc. is committed to expanding its reach and enhancing veterinary care even further. By the end of 2024, Parasight will be delivering similar integrations with major cloud-based veterinary practice management systems. This upcoming development will provide greater flexibility and accessibility for veterinary practices leveraging cloud technology.

****Quotes****

"We are thrilled to offer our innovative diagnostic solutions to an even wider range of veterinary practices through our integration with Cornerstone, Avimark, and Impromed Infinity," said Eric Hauck, CEO of Parasight System Inc. "This collaboration underscores our commitment to improving veterinary care by providing seamless access to accurate diagnostic information. Our upcoming integrations with cloud-based systems further demonstrate our dedication to meeting the evolving needs of veterinary practices."

****About Parasight System Inc.****

Parasight System Inc. is dedicated to advancing veterinary diagnostics through innovative technology. Our platform provides veterinarians with the tools they need to diagnose and treat their patients effectively, ensuring better health outcomes for animals worldwide.
